

Dr. Carl N. Hoff

## Self Profile

My interests include solving, collecting, and designing Twisty Puzzles. I also collect dice and enjoy most types of mathematical problems and puzzles. My exchange gift is a hexomino packing puzzle. I also enjoy engineering problems. A favorite of mine is the Tri-Star wheel design as seen on the Landmaster from the movie *Damnation Alley*. Other interests include group theory, astronomy, primes, polyominos, polycubes, mazes, fractals, ray tracing (I use POV-Ray), and 3D printing. Please see my shop on Shapeways, <http://www.shapeways.com/shops/wwwmwww>.

I'm currently an epitaxy process engineer working for Diodes FabTech in Lee's Summit, MO. You can reach me at [carl.n.hoff@gmail.com](mailto:carl.n.hoff@gmail.com). I'm also on linkedin, <http://www.linkedin.com/in/carlhoff>. The forums I frequent the most are TwistyPuzzles.com, Tron-Sector.com, and MacrossWorld.com and my user ID is wwwmwww on all three.

**Figure:** Picture of Dean Jeffries and myself standing in front of the Landmaster taken Nov. 12, 1999.
